

CALL FOR POSTER ABSTRACTS

4th IEEE Forum for Innovative Sustainable Transportation Systems (FISTS)
Riverside, California, USA | February 26th – 28th, 2024

Conference Committee

General Chair

Matthew Barth
University of California, Riverside

Program Chair

Ziran Wang
Purdue University

Program Co-Chair (USA)

Konstantina (Nadia) Gkritza
Purdue University

Program Co-Chair (Europe)

Meng Lu
Aelix ITS

Program Co-Chair (Asia)

Jia Hu
Tongji University

Publication Chair

Brendan Morris
University of Nevada, Las Vegas

Finance Chair

Danyang Tian
Honda Research Institute

Local Arrangements & Demo Chairs

Guoyuan Wu & Peng Hao
University of California, Riverside

Call for Late-Breaking Poster Abstracts

The IEEE FISTS committee invites abstract submissions that introduce late-breaking research results in the general field of sustainable transportation, where the topics include (and are not limited to): zero-emission vehicles and infrastructure, connected and automated vehicles for environmental sustainability, sustainable freight/marine/aviation solutions, renewable energy for transportation, shared mobility and micro-mobility, transportation policies for climate mitigation, etc.

The late-breaking poster session aims to promote discussions of emerging results within the research community, providing presenters with helpful feedback and audiences with latest insights in sustainable transportation.

Abstract Submission Deadline: January 26, 2024

Submission Link: <https://forms.office.com/r/NRFQCyYne2>

Frequently Asked Questions

- 1. Is there a peer-review process for late-breaking poster abstracts?**
The submissions will be evaluated by the FISTS technical program committee but will not go through the standard peer-review process by multiple reviewers.
- 2. When will the decisions be made for late-breaking poster abstracts?**
The evaluation will be conducted on a rolling basis and the result is expected to be given for a poster abstract within two weeks after its submission.
- 3. Will accepted abstracts be published in the IEEE conference proceedings?**
No, since they do not go through a peer-review process.
- 4. What is the presentation format of accepted abstracts?**
They will be presented during poster sessions at FISTS.
- 5. Is conference registration required for accepted abstracts?**
Yes. At least one author of each accepted abstract needs to register for FISTS and present in person with a poster.
- 6. If my full paper is rejected by FISTS, can I submit its abstract to this call?**
Yes.
- 7. If I have a published paper elsewhere, can I submit its abstract to this call?**
Yes.
- 8. If my abstract is presented at FISTS as a poster, can I still submit a full paper based on the same work to some other conferences and journals?**
Yes.
